Directional Dances:

In dance, like music, there are movement scales for learning and perfecting technique. In music we are familiar with Do, Re, Me, Fa, So, La, Te, Do. In dance the movement scale is up, down, right side, left side, front, back, right diagonal, left diagonal. Just as with music, in dance, the possibilities for creating new combinations of performance are endless. The Directional Dances theme for Summer Dance Camp at First Friends will give students of every age an opportunity to cultivate and solidify their inner impulses for dance. This will take place through a modern/contemporary style of dance.
